WETLAND MAPPING CONSORTIUM

Mapping Innovations at the Michigan DEQ: New approaches, tools and technologies

- Using GIS for Better Project Screening and Evaluation
  Chad Fizzell, Michigan Dept. of Environmental Quality

- Using New Technologies to Update the National Wetlands Inventory
  Jeremy Jones, Michigan Dept. of Environmental Quality

Hosted by the Association of State Wetland Managers
Supported by the U.S. Fish & Wildlife Service
AGENDA

• Welcome, General Info & Introductions
  - 10 minutes

• Using GIS for Better Project Screening and Evaluation (Chad Fizzell)
  - 20 minutes

• Using New Technologies to Update the National Wetland Inventory (Jeremy Jones)
  - 20 minutes

• Question & Answer
  - 20 minutes
If you have any technical difficulties during the webinar you can send us a question in the webinar question box or call Laura at (207) 892-3399 during the webinar.
WEBINAR TECH TIPS

If you are using the telephone to listen to the webinar, please mute both your computer’s microphone and speakers.

Please submit your questions for the presenters via the question box.

Tip: Close out other non-essential programs on your desktop.
WEBINAR SCHEDULE & RECORDINGS
WETLANDS ONE-STOP MAPPING

The Association of State Wetland Managers in collaboration with Virginia Tech's Conservation Management Institute (CMI) and the U.S. Fish and Wildlife Service's Northeast Region created Wetlands One-Stop Mapping to provide easy online access to geospatial data on wetlands and soils produced by federal and state agencies. The U.S. Fish and Wildlife Service (FWS), through its National Wetland Inventory (NWI), has produced wetland geospatial data for most of the country. Three different agencies post data on their own sites, but there is not a single place to go for these data. Wetlands One-Stop Mapping provides links to these and other websites. It provides online access to classification tools for adding hydrogeomorphic-type to wetland inventory data and the results of NWI+ projects (maps and reports). The geospatial information is linked to aerial imagery (and topographic maps) through ESRI's ArcGIS (including ArcGIS Explorer) for easy viewing of wetlands, their characteristics, and functions for areas where data are available.

The website also provides links to other federal and state websites that contain information on wetlands and geospatial wetland data. Among the national datasets accessible via Wetlands One-Stop Mapping are the NWI's wetlands mapper, USGS's web soil survey, USGS's national hydrography data and hydrologic unit code (HUC) data. Links to NatureServe Explorer and the U.S. National Vegetation Classification Hierarchy along with guidance on how to extract descriptions of wetland plant communities from those sites for specific areas of interest.

What is NWI+?
NWI+ was a regional initiative by the Northeast Region of the U.S. NWI+ Fish and Wildlife Service's NWI Program. It was supported by the NWI through regional mapping projects funded by the U.S. Fish and Wildlife Service and federal and state cooperators from the mid-1990s to 2015. It began as a regional demonstration initiative in how NWI data could be enhanced with hydrogeomorphic attributes (landscape position, landform, water flow path, and waterbody type (LLWW descriptors) to increase the functionality of NWI data for better characterizing wetlands, for predicting wetland functions at the landscape or watershed level, and for assessing the impact of wetland changes on wetland functions. The expanded database and its outputs were called NWI+ data as the results go beyond the standard NWI mapping. Production of NWI+ data was a special project of the NWI Program in which mostly in the Northeast Region but also undertaken by some states (e.g., Colorado, Georgia, Montana, and New Mexico) in other Regions when they were updating NWI data. While the demonstration was successful and NWI+ or similar data continue to be generated by several states, the national NWI Program (the U.S. Fish and Wildlife Service) is no longer able to support NWI+ initiatives. Moreover budget cuts for the program has made the NWI+ more dependent than ever on having cooperators update even the basic NWI database.

Wetland Mapping Training

U.S. Fish & Wildlife Service

The Fish and Wildlife Service’s National Wetlands Inventory (NWI) is pleased to announce the availability of initial modules of an online Wetland Mapping Training course. NWI is providing the training to encourage and enable mapping partnerships with other organizations in order to increase the amount of current, modernized wetlands geospatial data available to all users. The training is geared towards image interpreters already skilled in GIS, who may need special training for mapping wetlands, to learn how to interpret and classify wetlands, apply the new standards and requirements, or learn tips and tricks (coming soon) to make the mapping more efficient. The training is designed to implement the new Wetlands Mapping Standard and ensure the quality of the data - and training is an effective way to make sure the data are collected accurately from the beginning. Currently only three modules are available, two technical modules are coming soon, and three additional modules on related topics are planned. NWI will continue to provide in-person training to partnering organizations as needed, as well as data verification tools, guidance, and quality control of the data before it becomes part of the NWI layer of the National Spatial Data Infrastructure. To review or take the training, click here.

The training is evolving as we receive feedback. If you want to be part of the process, send comments to FW9_Wetlands@fws.gov. This training was developed in cooperation with the Association of State Wetland Managers, supported by EPA and the FGDC.

Training Webinars
Mapping Standards & Requirements – Rusty Griffin, U.S. Fish & Wildlife Service (10/15/14)

WETLAND MAPPING CONSORTIUM

Part 1: Introduction - Maria Stelk, Policy Analyst, ASWM
Presenter: Rusty Griffin, U.S. Fish & Wildlife Service

Part 2: Presenter: Rusty Griffin, U.S. Fish & Wildlife Service

Developing a Spatially Enabled Wetland Program Website to Communicate the Importance of Tribal Land Management

Andy Robertson, Executive Director
Geospatial Services
Saint Mary’s University of Minnesota
# Interested in Receiving CEUs?

<table>
<thead>
<tr>
<th>Who can get Certificates for Use in Applying for Continuing Education Credits?</th>
<th>Using ClassMarker to Download your Certificate of Participation</th>
</tr>
</thead>
<tbody>
<tr>
<td>• You must be a participant during the entire live webinar presentation.</td>
<td>If you need CEUs for your participation in today’s webinar, use the link you are sent to access today’s webinar certificate page on the ClassMarker site.*</td>
</tr>
<tr>
<td>• We are able to track webinar participation by registrants using our GoToWebinar software.</td>
<td>You will need to create a username and password.</td>
</tr>
<tr>
<td>• Your Certificate of Participation will state that you were a participant in this specific ASWM webinar on today’s date from 3-5 pm Eastern.</td>
<td>This will take you to the “test” where you will certify your participation. If you certify your participation, click “yes.”</td>
</tr>
<tr>
<td>• You will be responsible for sending the ASWM certificate to your accrediting organization.</td>
<td>You will be prompted to download your certificate. If you cannot download, go back into ClassMarker using your password to print. Do not pay twice to download.</td>
</tr>
</tbody>
</table>

For assistance, please contact Laura Burchill laura@aswm.org or (207) 892-3399.

*A link to a page with instructions will be sent to everyone who registered in an e-mail one hour after the webinar ends. Non-members will be required to pay $25 per certificate.*
How to Receive a Certificate of Participation for the October 18, 2017 Wetland Mapping Consortium Webinar “Developing a Spatially Enabled Wetland Program Website to Communicate the Importance of Tribal Land Management”

Using the ClassMarker online system, ASWM will ask you to certify that you participated in the entire live Wetland Mapping Consortium webinar on Wednesday, October 18, 2017 from 3-5 pm Eastern.

Once you are in ClassMarker, you will be prompted to provide your name and email address, which will be used to process your certificate.

Answering “yes” to the question about your participation will automatically qualify you to receive a certificate for your attendance. Answering “no” will result in no certificate being issued.

You will be prompted to download your Certificate of Participation from ClassMarker after you complete the quiz.

Once you download your certificate, you can then submit the certificate to the accrediting organization of your choice to potentially receive continuing education units/credits.

Please select the appropriate certificate process:

- **I am an ASWM Member:**
  All ASWM members receive free Certificates of Participation for webinars. Non-Members will be charged a processing fee of $25.00 US. To receive your free Certificate of Participation, click here.

  If you are not a current ASWM Member, you must select the non-member certificate link to receive your certificate.

- **I am not an ASWM Member:**
  If you are not an ASWM member, please either:
  
  - Select the Non-member Certificate Option to get your certificate. All non-ASWM Members are required to pay a $25.00 certificate processing fee. You will be prompted to pay the processing fee using PayPal, with the option to sign in as either a PayPal member or as a guest (not requiring a PayPal account and using your credit card).

  - B) We encourage you to go to the ASWM.org website and become a member so that you can receive certificates at no charge for the next 12 months.

If you have any questions, please contact Laura Burchill at laura@aswm.org or contact the ASWM office at (207) 892-3399.
We Invite You to Join the Association Of State Wetland Managers

**ASWM BENEFITS OF MEMBERSHIP**

- Free Participation in our Member’s Only Wetland Webinar Series
- Exclusive access to Member’s Webinar recordings*
- Free Certificates of Attendance for all ASWM webinars†
- Free Subscription to the Association’s bi-monthly membership newsletter, Wetland News
- Free Subscription to the Association’s weekly news bulletin, Insider’s Edition
- Reduced Rates for Participation in ASWM Workshops and Training Sessions
- Opportunities for Involvement in ASWM Committees
- Voting rights in elections of the Board of Directors and all issues presented to members to vote*
- Access to a member’s only section for discussions in ASWM’s Online Forum*
- Access to a Robust Online Collection of Wetland References
- Access to a National Network of Wetland Professionals
- A Sense of Pride Knowing That You Have Directly Supported Active Wetland Conservation Efforts Nationwide
- Corporate group memberships (11-20+ people) also include logo placement on ASWM’s website homepage with a live link*
- For a detailed description of benefits, [click here.](https://www.aswm.org/join-aswm)

* New benefits as of Dec. 1, 2016
† Non-members will be charged $25.00 for each Certificate of Attendance beginning January 1, 2017.
